TASK 1: EPA MOCK INTEGRATED PRACTICAL INSPECTION

Autocare L2 | Block 10 | Apprentice instructions | v1.1

Task reference: Block_10_Task_1_EPA_Mock_Integrated_Inspection

Task overview

Block
Block 10 - EPA Preparation and Final Assessment Readiness

Weeks
Weeks 95-110

Duties covered
All duties consolidated

KSBs covered
All KSBs revisited and evidenced

Estimated duration
60 minutes

Assessment type
Practical / knowledge / documentation

Scenario

As part of final readiness, you must complete an integrated practical inspection under mock assessment conditions. You will inspect, record evidence, explain findings and identify any further work or authorisation needed.

Objectives

- Demonstrate safe independent working under mock conditions.
- Carry out an integrated vehicle inspection methodically.
- Record findings, measurements and recommendations clearly.
- Explain decisions using evidence and correct terminology.
- Reflect on readiness for EPA-style practical assessment.

Materials you need at the workstation

- Light vehicle with selected defects
- Inspection checklist and job card
- Measuring tools and torque wrench
- Manufacturer technical information
- PPE and Apprentice Assessment Record

Complete all relevant fields. Enter N/A where a field does not apply.

Practical task instructions

1. Prepare the vehicle and work area safely.
2. Complete the integrated inspection sequence set by the assessor.
3. Record all technical measurements and defect findings.
4. Explain priorities, customer recommendations and authorisation requirements.
5. Complete final documentation and reinstate the workstation.

Vehicle or equipment details

Vehicle make

Mileage / hours

Vehicle model

Engine size / system type

Registration / fleet number

VIN / chassis / equipment ID

Work completed and safe working

Brief description of work carried out and any further recommendations

PPE worn and special precautions taken

Technical data and measurements

Defects identified

Safety-critical item

Tyre measurement

Brake measurement

Battery/electrical check

Fluid/environmental check

Torque setting

Further work required

Special tools including any required calibration

Knowledge questions

1. How did you plan the inspection sequence?

2. What evidence supports your main defect finding?

3. How did you decide which defects were urgent?

Knowledge questions continued

4. What documentation would be needed before further work?

5. How did you maintain safety and housekeeping?

6. What customer explanation would you give?

7. What would you improve before final EPA?

Assessor observation notes

Record observations, evidence reviewed and any areas requiring further development

Assessment declarations

Apprentice declaration: I confirm that the work recorded in this assessment document is my own work and that I completed the task under the conditions stated.

Assessor declaration: I confirm that I have observed and/or reviewed the evidence recorded in this document and that the assessment decision is accurate.
