TASK 3: VEHICLE SAFETY INSPECTION AND WORKSHOP PREPARATION

Autocare Technician Level 2 | Block 1 | v2.1

TIME	EVIDENCE	PROGRAMME POINT
60 minutes	**Practical | Knowledge | Documentation**	**Weeks 1-10**

Your task

A customer vehicle has arrived for an initial safety inspection. You must prepare the work area, use PPE correctly, complete a structured inspection and record any safety-related findings without carrying out repairs.

What you must do

1. Ensure the working area is safe and the vehicle is correctly prepared before starting work.
2. Carry out external, under-bonnet, in-vehicle and raised-vehicle checks as instructed.
3. Record all inspection findings using clear workshop terminology.
4. Identify any safety-critical defects and explain them to the assessor/workplace mentor.
5. Reinstate the vehicle and workstation to a safe, clean condition.

What good evidence looks like

SAFE SETUP
Suitable PPE, a prepared work area and controlled vehicle or equipment.

CORRECT METHOD
A logical sequence using the relevant procedure and technical information.

ACCURATE EVIDENCE
Actual readings, findings and actions recorded clearly and precisely.

SOUND DECISIONS
Appropriate recommendations, referral or authorisation supported by evidence.

You will need

- Light vehicle with inserted inspection defects
- Vehicle inspection checklist
- Torch, tread depth gauge and tyre pressure gauge
- PPE and workshop safety equipment
- Apprentice Assessment Record

SOW ALIGNMENT

Block 1 - Induction, Safety and Core Workshop Skills
Duties: 1, 2, 3, 4, 5 KSB evidence focus: K1, K2, K5-K13, K24, S1-S10, B1, B2
Task reference: Block_1_Task_3_Vehicle_Safety_Inspection

Task evidence

PPE and precautions used

Safety-critical findings and immediate action

Work completed, findings and recommendations

Knowledge check

1. Why must PPE be selected before starting the task?

2. State the minimum legal tread depth for a car tyre.

Knowledge check - continued

3. (a) Why should defects be recorded clearly before speaking to the customer? (b) What checks must be completed before raising a vehicle?

4. Explain how poor housekeeping can create a workshop risk.

5. (a) Which defects would you class as safety critical? (b) What further work or customer authorisation may be required?

Assessor/Workplace Mentor observation

- ☐ Prepare the vehicle and workstation safely before inspection.
- ☐ Identify visible defects and record recommendations clearly.
- ☐ Explain which findings would require customer authorisation before work.
- ☐ Carry out a basic safety inspection using a methodical routine.
- ☐ Demonstrate correct PPE, housekeeping and documentation practice.
