TASK 1: INTERIM SERVICE, INSPECTION AND DOCUMENTATION

Task reference: Block_3_Task_1_Interim_Service_and_Documentation

Task overview

Block
Block 3 - Workshop Processes and Environmental Awareness

Weeks
Weeks 21-30

Duties covered
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

KSBs covered
K1-K16, S1-S12, B1, B2

Estimated duration
60 minutes

Assessment type
Practical / knowledge / documentation

Scenario

A vehicle is booked for an interim service. You must follow the service schedule, identify required service items, complete the inspection documentation and record any additional work requiring customer authorisation.

Objectives

- Follow a routine service workflow safely.
- Identify service items using manufacturer or workshop information.
- Complete service and inspection documentation accurately.
- Record additional work and customer authorisation requirements.
- Maintain good housekeeping and environmental control during the task.

Materials you need at the workstation

- Light vehicle
- Service schedule
- Oil filter/air filter examples where required
- Fluid measuring/checking equipment
- Proforma/job card documentation
- PPE and Apprentice Assessment Record

Complete all relevant fields. Enter N/A where a field does not apply.

TASK 1: BLOCK 3 APPRENTICE ASSESSMENT

Practical task instructions and apprentice assessment record

Practical task instructions

1. Prepare the vehicle and workstation safely.
2. Identify required service items and technical information.
3. Carry out service checks as instructed by the assessor.
4. Record findings, parts required and any additional work.
5. Reinstate the vehicle and workstation and complete documentation.

Vehicle or equipment details

Vehicle make

Mileage / hours

Vehicle model

Engine size / system type

Registration / fleet number

VIN / chassis / equipment ID

Work completed and safe working

Brief description of work carried out and any further recommendations

PPE worn and special precautions taken

Technical data and measurements

Engine oil specification

Oil capacity

Oil filter part number

Air/cabin filter part number

Brake fluid condition

Coolant strength/level

Tyre pressures

Wheel torque setting

Special tools including any required calibration

Knowledge questions

1. Why must a service schedule be followed?

2. What information is needed before ordering service parts?

3. Why must additional work be authorised before starting?

Knowledge questions continued

4. How should waste oil or filters be controlled?

5. What makes a job card clear and audit ready?

6. How would you prioritise advisory and urgent defects?

7. What evidence should be uploaded after the service task?

Assessor observation notes

Record observations, evidence reviewed and any areas requiring further development

TASK 1: BLOCK 3 APPRENTICE ASSESSMENT

Declarations, sign-off and assessment decision

Assessment declarations

Apprentice declaration: I confirm that the work recorded in this assessment document is my own work and that I completed the task under the conditions stated.

Assessor declaration: I confirm that I have observed and/or reviewed the evidence recorded in this document and that the assessment decision is accurate.
