TASK 4: ENVIRONMENTAL SPILL RESPONSE AND WASTE CONTROL

Autocare Technician Level 2 | Block 3 | v2.1

TIME	EVIDENCE	PROGRAMME POINT
45 minutes	**Practical | Knowledge | Documentation**	**Weeks 21-30**

Your task

During routine workshop activity, a fluid spill and several waste items are identified. You must make the area safe, identify waste streams, record the incident and explain how environmental controls prevent harm.

What you must do

1. Assess the work area and identify immediate risks.
2. Select PPE and control the spill or simulated spill as instructed.
3. Identify correct waste stream controls for fluids and contaminated materials.
4. Complete an incident or environmental record.
5. Explain corrective actions and reinstate the work area.

What good evidence looks like

SAFE SETUP
Suitable PPE, a prepared work area and controlled vehicle or equipment.

CORRECT METHOD
A logical sequence using the relevant procedure and technical information.

ACCURATE EVIDENCE
Actual readings, findings and actions recorded clearly and precisely.

SOUND DECISIONS
Appropriate recommendations, referral or authorisation supported by evidence.

You will need

- Workshop area or simulated spill scenario
- Spill kit and signage
- COSHH information or safety data sheets
- Waste stream labels/containers
- PPE and Apprentice Assessment Record

SOW ALIGNMENT

Block 3 - Workshop Processes and Environmental Awareness
Duties: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 KSB evidence focus: K1-K16, S1-S12, B1, B2

Safety-critical findings and immediate action

Work completed, findings and recommendations

Knowledge check

1. Why must spills be dealt with immediately?

2. What information can be found on a COSHH sheet?

Knowledge check - continued

3. (a) Why must different waste streams be segregated? (b) What could happen if waste fluids are disposed of incorrectly?

4. How should the incident be recorded?

5. (a) Who should be informed if the spill cannot be controlled? (b) How does housekeeping affect customer and colleague safety?

Assessor/Workplace Mentor observation

- ☐ Respond to a workshop spill using safe procedures.
- ☐ Identify appropriate waste streams and storage controls.
- ☐ Use PPE and signage/barriers where required.
- ☐ Complete an environmental or incident record.
- ☐ Explain how good housekeeping supports safety and compliance.
