BLOCK 9 LEARNING IMPACT RECORD

Emerging Technologies, Electric Vehicles and Hydrogen Awareness

Weeks 81-94 | Months 20-24 | Knowledge, skills and behaviours reflection | Distance travelled | v2.1

Record details

Apprentice name

Employer

Workplace Mentor

GTA Trainer

Block start date

Block end/reflection date

Complete in two stages. At the start, discuss the six knowledge, skill and behaviour areas and enter only the START scores. At the end, enter the END scores. These plain-English areas support review and do not replace the formal KSB mapping or assessment record. Use: 1-2 little/no experience; 3-4 close support; 5-6 some support; 7-8 usually safe and consistent with limited support; 9-10 independent within role and able to explain/verify.

Block knowledge, skills, behaviours and scores

Score each area out of 10

KSB AREA	Block outcome and relevant workplace examples	START /10	END /10
K KNOWLEDGE Area 1	Explain EV, hybrid, charging and hydrogen principles at awareness level. Workplace examples: Components; energy sources; charging; hazards; system applications and limitations.		
K KNOWLEDGE Area 2	Explain ADAS, oscilloscope and emerging-technology work boundaries. Workplace examples: Signals; pre-calibration inputs; compliance; referral; parts; quality and waste controls.		
S SKILL Area 3	Support emerging-technology checks and customer handover. Workplace examples: Charging guidance; vehicle/connector checks; basic signal awareness; clear explanations.		
S SKILL Area 4	Complete and record ADAS pre-checks and related workshop processes. Workplace examples: Tyres; alignment; ride height; sensor inputs; estimates; parts; quality records.		
B BEHAVIOUR Area 5	Protect safety by recognising limits and stopping or referring work. Workplace examples: Control the area; use approved guidance; avoid unauthorised work; escalate hazards.		
B BEHAVIOUR Area 6	Remain professional, adaptable and environmentally responsible. Workplace examples: Keep learning; communicate clearly; support others; follow quality and waste controls.		

START: What KSB experience do you already have?

START: Main development priority for this block

BLOCK 9 LEARNING IMPACT RECORD

Emerging Technologies, Electric Vehicles and Hydrogen Awareness | KSB reflection and distance travelled | Complete after block training and assessment

Complete this page after training and assessment. Compare the START and END scores on page 1 and use real workplace or training evidence. Scores show distance travelled; they do not replace formal assessment decisions.

End-of-block reflection and evidence

What knowledge can you now explain, skills can you apply, and behaviours can you demonstrate that improved during this block?

Evidence example 1 - task, your role and result

Evidence example 2 - task, your role and result

Evidence references - for example job card, task, observation, photo, feedback or portfolio reference

Which area changed most, and why?

What still needs practice, support or assessment?

Workplace Mentor / GTA Trainer confirmation

- ☐ Evidence supports improved knowledge and understanding.
- ☐ Evidence supports safe and competent skill application.
- ☐ Relevant workplace behaviours are demonstrated consistently.
- ☐ Further practice, support or assessment is required.

Reviewer comments - confirm knowledge, skill and behaviour progress, relevant evidence and any limits to the judgment

Agreed next action(s), responsible person and target date
