TASK 3: INTEGRATED FULL VEHICLE AND TRAILER INSPECTION

Heavy Vehicle Service and Maintenance Technician Level 3 | Block 10 | v1.3

TIME
90 minutes (adapt to workplace conditions)

EVIDENCE
Practical | Knowledge | Documentation

PROGRAMME POINT
Weeks 129-135 | Months 34-35

Your task

Complete a timed, developmental full vehicle and trailer inspection that integrates safety, technical information, defect classification, communication and record quality across the programme.

What you must do

1. Plan the task, confirm scope, vehicle/trailer identity and safe setup.
2. Complete the attached checklist using current technical and DVSA information.
3. Record measurements and defects, including safety-critical escalation.
4. Explain priorities and required actions to the assessor/workplace mentor.
5. Complete final QA, evidence references and an accurate maintenance record.

What good evidence looks like

SAFE CONTROL

All safety-critical systems, support arrangements and stored-energy controls remain subject to the relevant manufacturer and workplace procedures.

CORRECT METHOD

A logical sequence using current manufacturer, DVSA, company and task-specific information.

ACCURATE EVIDENCE

Actual values, test conditions, units, findings and evidence references recorded clearly.

SOUND DECISIONS

A justified serviceability, repair, referral or recovery decision followed by appropriate verification.

You will need

- Heavy vehicle and trailer
- DVSA/manufacturer information
- Full inspection and measuring equipment
- PPE, defect report and job-card evidence

SOW ALIGNMENT

Block 10 - Final Consolidation, Corrective Learning and EPA Readiness Training

KSB evidence focus: S11, B1; integrated evidence across K1-K11, S1-S11, B1-B3

Task reference: HV_L3_Block_10_Task_3_Integrated_Full_Vehicle_and_Trailer_Inspection

FULL VEHICLE AND TRAILER INSPECTION

Checklist A | Cab, controls and lighting

Apprentice | **Vehicle / trailer ID**

Date | **Job card / evidence ref**

Select Done or N/A for each item. N/A must be genuine. A tick does not mean defect-free.
Record defects and uncompleted checks by item reference on Checklist C and the practical record.

A Cab interior and controls

Item and component	Look for	Done	N/A
A1 Registration and ministry plates	Present; legible; secure	☐	☐
A2 Speed limiter plaque	Present; legible	☐	☐
A3 Mirrors and indirect vision	Condition; security; view	☐	☐
A4 Cab floor and steps	Condition; security	☐	☐
A5 Windows and forward view	Condition; obstruction; damage	☐	☐
A6 Seats, belts and restraints	Condition; security; operation	☐	☐
A7 Speedometer and tachograph	Condition; operation; seals	☐	☐
A8 Horn and reverse warning	Operation; security	☐	☐
A9 Driving controls	Operation; obstruction	☐	☐
A10 Air pressure warning and build-up	Operation; build-up time	☐	☐
A11 Service brake pedal	Operation; condition; leaks	☐	☐
A12 Hand brake control valves	Operation; security; leaks	☐	☐
A13 Steering control	Free play; security	☐	☐
A14 Washers and wipers	Operation; effectiveness	☐	☐
A15 Height indicator	Presence; condition	☐	☐

B Lights and markings

Item and component	Look for	Done	N/A
B1 Markers and reflectors	Type; position; condition	☐	☐
B2 Indicators and hazard lamps	Operation; condition	☐	☐
B3 Other lamps	Operation; position; condition	☐	☐
B4 Headlamps and aim	Operation; condition; aim	☐	☐

Use current DVSA and manufacturer information for the allocated vehicle and trailer.

FULL VEHICLE AND TRAILER INSPECTION

Checklist B | Exterior, chassis and coupling

Apprentice | **Vehicle / trailer ID**

Date | **Job card / evidence ref**

Confirm safe access and record anything not inspected. Do not infer a satisfactory result from a tick.

C Cab exterior, chassis and trailer interfaces

Item and component	Look for	Done	N/A
C1 Mirrors and indirect vision	Compliance; condition; security	☐	☐
C2 Cab doors	Condition; security	☐	☐
C3 Cab mounting and body	Condition; security; damage	☐	☐
C4 Sideguards, underrun, bumpers	Condition; security; compliance	☐	☐
C5 Road wheels and hubs	Fixing; condition; security	☐	☐
C6 Tyre size and type	Size; load and speed ratings	☐	☐
C7 Tyre condition	Wear; damage; visible areas	☐	☐
C8 Spare wheel and carrier	Condition; security	☐	☐
C9 Vehicle to trailer coupling	Wear; security; locking	☐	☐
C10 Trailer brake and air connections	Condition; security; stowage	☐	☐
C11 Spray suppression and arches	Condition; compliance	☐	☐
C12 Fuel tanks and systems	Condition; cap; pipework; leaks	☐	☐
C13 Speed limiter	Fitted; security; seals	☐	☐
C14 Electrical wiring and equipment	Condition; security; damage	☐	☐
C15 Chassis condition	Condition; security	☐	☐
C16 Transmission mounts and leaks	Condition; leak severity	☐	☐
C17 Exhaust system	Condition; security; leaks	☐	☐
C18 Steering and suspension	Wear; alignment; leaks	☐	☐
C19 Brake system and components	Condition; adjustment; wear	☐	☐

C9-C10: record N/A only where the equipment is absent; explain any inspection limitation.
Safety-critical findings must be escalated immediately under workplace procedure.

TRAILER SAFETY INSPECTION

Checklist C | Trailer systems and condition

Apprentice		**Vehicle / trailer ID**	
Date		**Job card / evidence ref**	

Inspect the allocated trailer only under approved safe access and support arrangements.
Use current DVSA and manufacturer criteria. Record N/A and limitations rather than assuming a pass.

T Trailer inspection

Item and component	Look for	Done	N/A
T1 Trailer identity and configuration	Plate; VIN; equipment fitted	☐	☐
T2 Chassis, body and mounting	Condition; damage; security	☐	☐
T3 Kingpin, coupling and locks	Wear; mounting; positive lock	☐	☐
T4 Landing legs and supports	Condition; security; stowage	☐	☐
T5 Axles and suspension	Condition; wear; air leaks	☐	☐
T6 Wheels, hubs and tyres	Fixings; condition; tread	☐	☐
T7 Air lines and brake components	Condition; leaks; operation	☐	☐
T8 Electrical connections and lamps	Condition; security; operation	☐	☐
T9 Guards and spray suppression	Condition; security; compliance	☐	☐
T10 Defects and inspection limits	Record; classify; escalate	☐	☐

Trailer axle / tyre tread readings (mm) | identify outer and inner twin wheels

Axle	OS outer	OS inner	NS outer	NS inner
Trailer axle 1				
Trailer axle 2				

Trailer findings / checks not completed

Reference the T item and transfer safety-critical findings to the practical record immediately.

INSPECTION READINGS AND FINDINGS

Checklist D | Measurements, defects and decision

Apprentice | **Vehicle / trailer ID**

Date | **Job card / evidence ref**

DVSA manual / section and access date

Supporting observations and measurements

	Actual / units	Criterion / ref
A10 Air pressure / warning and build-up		
A13 Steering free play or control check		
Other measured check and specification		

Tyre tread depth in millimetres

Axle / position	Offside outer	Offside inner	Nearside outer	NS inner
Front				
Rear				
Additional / position				

Label twin wheels outer/inner. Record only readings taken; explain inaccessible positions below.

Defects, developing issues and inspection limitations

Checklist ref / exact location	Finding and evidence	Urgency / action

Uncompleted checks / reason

Status (select one) ☐ Serviceable ☐ Defect / action ☐ Not confirmed

This learning task does not authorise release. Record reasons and PASS/REFER on the core task pages.

TASK 3: INTEGRATED FULL VEHICLE AND TRAILER INSPECTION

Practical record

Apprentice, location and vehicle details

Apprentice name

Date

Employer / training centre

Vehicle / trailer make and model

Registration / fleet number

Odometer / hours

VIN / chassis / trailer number

Job card / task reference

Measurements and technical checks

Vehicle / trailer ID		Inspection start / finish	
Key measurement 1		Specification / result	
Key measurement 2		Specification / result	
Highest-risk defect		Action / evidence reference	

Special tools, equipment, calibration or technical-information requirements

Task evidence

PPE, precautions and safe-system controls used

Safety-critical findings and immediate action

Work completed, actual findings, diagnosis, recommendations and verification

Knowledge check

1. How did you decide the inspection sequence and priorities?

2. Which finding created the greatest risk and why?

Knowledge check - continued

3. Explain how legal and manufacturer information informed your decision.

4. How did you verify the quality of your own work?

5. What would you improve before a future integrated assessment?

Assessor/Workplace Mentor observation

- ☐ Plans and carries out safe integrated inspection.
- ☐ Selects and uses technical information effectively.
- ☐ Records precise findings and classifies defects.
- ☐ Communicates decisions and limitations professionally.
- ☐ Completes final QA and reflective evidence.

Assessor/Workplace Mentor observation notes

Decision and feedback

Decision - select one

- ☐ PASS
- ☐ REFER

Evidence reference

Feedback and action required

Sign-off

Signatures confirm that this is the apprentice's own work and that the evidence and developmental decision are accurate.

Apprentice name

Assessor/Workplace Mentor name

Apprentice signature

Assessor/Workplace Mentor signature

Date

FAULT SCENARIOS AND EVIDENCE

Heavy Vehicle Service and Maintenance Technician Level 3 | Block 10 | Task 3

How to use this sheet

Work through the listed scenarios during the block using a vehicle, safe fault rig or supported case study. Record which scenario was used for this task and reference the actual measurements and assessor observation on the existing practical record. A discussion or case study alone is not evidence of practical competence.

1. Walk and talk safety inspection using the DVSA manual

Checks: Explain the inspection route, locate the current DVSA manual criteria for selected items and justify actual defect classification.

Evidence: Record manual edition/access date, selected items, findings, escalation and completed maintenance record.

Completed as: [ ] Vehicle/rig practical [ ] Supported case study [ ] Further practice needed

Date / evidence or job-card reference: _____

Scenario selected for the original task assessment: _____

For any safety-critical fault, stop or control the work and follow the manufacturer, DVSA and workplace procedures. Use the original task pages for findings, feedback, PASS/REFER and signatures.
