APPRENTICE INSTRUCTIONS

Panel L3 Block 1 - Panel Workshop Safety and Body Construction **v1.0**

Task Reference	Block_1_Task_3_Panel_Workshop_Safety_and_Body_Construction_v1.0
Block	Block 1 - Induction, Safety and Core Panel Workshop Skills
Weeks	Weeks 1-16
Duties covered	D1, D2, D5, D8, D9, D10
KSBs covered	K2, K3, K6, K8, K9, S1, S6, S7, B1-B7
Estimated duration	60 minutes
Assessment type	Practical / knowledge / documentation

Scenario

A damaged vehicle or training shell has arrived for an initial panel-shop inspection. You must prepare the work area, select suitable PPE, identify vehicle body construction features and record safety-related findings before any repair work begins.

Objectives

- Prepare the workstation using safe bodyshop routines and PPE.
- Identify body construction, panel type and visible safety-system concerns.
- Apply COSHH, manual handling and housekeeping controls before work.
- Record findings clearly using job-card and evidence expectations.
- Explain when work must stop and be escalated to a supervisor.

Materials you need at the workstation

- Training vehicle, body shell or panel section
- PPE, risk assessment template and COSHH information
- Body construction diagrams or technical data
- Inspection lamp, trim tools, measuring tape or gap gauge
- Apprentice Assessment Record

APPRENTICE INSTRUCTIONS

Panel L3 Block 1 - Panel Workshop Safety and Body Construction v1.0

Practical task instructions

1. Confirm the job card, vehicle details and required task before entering the work area.
2. Select PPE and complete a dynamic risk check for the panel-shop activity.
3. Identify the body construction type, panel area, visible safety systems and any restrictions.
4. Record observations using clear panel terminology and identify any escalation points.
5. Reinstate the work area, tools and vehicle to a safe condition after the task.

Apprentice Assessment Record

Vehicle make		Mileage	
Vehicle model		Chassis number	
Vehicle reg		Job card number	
Panel / area		Apprentice group	

Brief description of work carried out and any further recommendations

PPE worn, special precautions and safety controls used

Photographic evidence, job-card or portfolio reference

APPRENTICE INSTRUCTIONS

Panel L3 Block 1 - Panel Workshop Safety and Body Construction v1.0

Technical data and measurements

Body construction type		Panel area inspected	
PPE selected		COSHH controls checked	
SRS/ADAS visible signs		Material identified	
Lifting/support method		Risk controls applied	

Special tools, technical data, calibration, material controls or method references

Knowledge questions

1. Why must PPE and task-specific controls be selected before starting panel work?

2. How can vehicle body construction influence the repair route?

3. What is the difference between a fixed panel and a bolt-on panel?

Knowledge questions continued

4. Why must SRS or ADAS warning signs be considered before panel operations?

5. Explain how poor housekeeping can create a risk in a bodyshop.

6. Which findings would require the task to stop and be escalated?

7. What evidence should be uploaded to prove the inspection was completed correctly?

Assessor observation notes
