APPRENTICE INSTRUCTIONS

Panel L3 Block 6 - Filler Application, Shaping and Paint Handover **v1.0**

Task Reference	Block_6_Task_4_Filler_Application_Shaping_and_Paint_Handover_v1.0
Block	Block 6 - Panel Repair, Pulling, Filler Finishing and Quality Control
Weeks	Weeks 81-96
Duties covered	D1, D4-D6, D8, D9
KSBs covered	K3, K4, K6, K8, K9, S1, S5-S7, B1, B2, B6, B7
Estimated duration	60 minutes
Assessment type	Practical / knowledge / documentation

Scenario

A repaired panel requires filler finishing before paint preparation. You must prepare the substrate, mix and apply filler, shape the repair, check for defects and complete a paint handover record.

Objectives

- Prepare the substrate before filler application.
- Mix and apply filler using appropriate safety controls.
- Shape and sand the repair using a controlled process.
- Identify pinholes, feather-edge issues and contour defects.
- Complete a clear paint handover and quality record.

Materials you need at the workstation

- Prepared panel or training panel
- Filler, mixing board, applicators and sanding blocks
- Abrasives, guide coat and contour checking tools
- PPE, dust extraction and masking/protection materials
- Paint handover checklist and camera/tablet

APPRENTICE INSTRUCTIONS

Panel L3 Block 6 - Filler Application, Shaping and Paint Handover v1.0

Practical task instructions

1. Confirm the panel is ready for filler and record the substrate condition.
2. Select PPE, dust extraction and material controls before mixing filler.
3. Mix, apply and shape filler according to the task instruction.
4. Sand and check the repair for contour, pinholes, feather-edge and finish quality.
5. Complete the paint handover record with evidence and any remaining concerns.

Apprentice Assessment Record

Vehicle make		Mileage	
Vehicle model		Chassis number	
Vehicle reg		Job card number	
Panel / area		Apprentice group	

Brief description of work carried out and any further recommendations

PPE worn, special precautions and safety controls used

Photographic evidence, job-card or portfolio reference

APPRENTICE INSTRUCTIONS

Panel L3 Block 6 - Filler Application, Shaping and Paint Handover v1.0

Technical data and measurements

Substrate preparation		Filler mix/ratio	
Maximum filler depth		Sanding grades used	
Guide coat result		Pinholes/defects	
Final contour result		Paint handover notes	

Special tools, technical data, calibration, material controls or method references

Knowledge questions

1. Why must the substrate be prepared before filler is applied?

2. What risks are created by incorrect filler mix or excessive depth?

3. Why should extraction and PPE be used during sanding?

Knowledge questions continued

4. How does guide coat help during shaping and quality checks?

5. What defects must be corrected before paint handover?

6. How can poor filler finishing affect the paint process?

7. What information should be included in the handover record?

Assessor observation notes
