TASK 3: WORKSHOP SAFETY, TOOLS AND SAFE VEHICLE SUPPORT

Vehicle Damage Paint Technician Level 3 | Block 1 | v1.1

TIME	EVIDENCE	PROGRAMME POINT
60 minutes	**Practical | Knowledge | Documentation**	**Weeks 1-10**

Your task

A mixed motor vehicle workshop practical is being prepared. You must inspect the work area, identify hazards, select and check suitable tools and PPE, confirm the vehicle or training rig is safely supported, and record the controls required before work begins.

What you must do

1. Confirm the practical activity, work area and limits of responsibility with the assessor.
2. Inspect the area, vehicle or rig and record hazards affecting people, equipment or the task.
3. Select and check the PPE, tools and equipment required for the planned activity.
4. Confirm vehicle support, battery, electrical and fire controls, stopping if any control is unsafe.
5. Explain the checks to the assessor, complete the record and leave the area safe and orderly.

What good evidence looks like

SAFE SETUP

Suitable PPE, a prepared work area and controlled vehicle, component or equipment.

CORRECT METHOD

A logical sequence using the relevant procedure and technical information.

ACCURATE EVIDENCE

Actual readings, findings and actions recorded clearly and precisely.

SOUND DECISIONS

Appropriate recommendations, referral or authorisation supported by evidence.

You will need

- Training vehicle, component, workshop rig or safe vehicle-support demonstration area
- PPE, hazard checklist and local workshop safety information
- Hand tools, equipment and pre-use inspection checklist
- Vehicle-support, battery, fire and technical information
- Apprentice Assessment Record

SOW ALIGNMENT

Block 1 - Motor Vehicle Foundation Skills - Shared Controlled Programme
Duties: Controlled Foundation Skills cross-reference - see central mapping KSB evidence focus: Controlled shared mapping and learner record

Task evidence

PPE and precautions used

Safety-critical findings and immediate action

Work completed, findings and recommendations

Knowledge check

1. Why must hazards and control measures be confirmed before workshop work starts?

2. What checks should be completed before using a hand tool or item of equipment?

Knowledge check - continued

3. (a) Why must a vehicle be supported using approved points and equipment? (b) Which battery, electrical or fire findings would require the task to stop and be escalated?

4. How can poor housekeeping affect safety and work quality?

5. (a) Why should technical information and local procedures be followed throughout the task? (b) What evidence should be recorded to demonstrate safe and professional working?

Assessor/Workplace Mentor observation

- ☐ Prepare a safe work area using approved workshop routines and local procedures.
- ☐ Confirm safe vehicle support and identify battery, electrical and fire precautions.
- ☐ Complete the safety and tool records accurately, then reinstate the work area.
- ☐ Select and inspect suitable PPE, hand tools and equipment before use.
- ☐ Use technical information to identify limits, safe methods and escalation points.
