TASK 3: EPA MOCK PRACTICAL INTEGRATED PAINT REPAIR SCENARIO

Vehicle Damage Paint Technician Level 3 | Block 10 | v1.1

TIME	EVIDENCE	PROGRAMME POINT
60 minutes	**Practical | Knowledge | Documentation**	**Weeks 129-139**

Your task

You are completing a mock integrated paint task under assessment-style conditions. You must plan, prepare, complete the required paint process, inspect the outcome and explain your decisions with supporting evidence.

What you must do

1. Read the mock task brief and confirm the required outcome with the assessor.
2. Plan the process, PPE, materials, equipment and quality checks before starting.
3. Complete the preparation/application/inspection stages within the agreed task scope.
4. Record technical data, settings, defects, corrective actions and evidence references.
5. Reflect on performance and agree any final development actions.

What good evidence looks like

SAFE SETUP
Suitable PPE, a prepared work area and controlled vehicle, component or equipment.

CORRECT METHOD
A logical sequence using the relevant procedure and technical information.

ACCURATE EVIDENCE
Actual readings, findings and actions recorded clearly and precisely.

SOUND DECISIONS
Appropriate recommendations, referral or authorisation supported by evidence.

You will need

- Mock EPA paint repair scenario and job card
- Vehicle/panel, materials, spray equipment, booth or training bay
- Technical data, product sheets and safety information
- QA checklist and observation record
- Portfolio/evidence upload checklist

SOW ALIGNMENT

Block 10 - Final Consolidation, Portfolio Completion and EPA Readiness
Duties: All local duties consolidated KSB evidence focus: All KSBs revisited and evidenced

Task evidence

PPE and precautions used

Safety-critical findings and immediate action

Work completed, findings and recommendations

Knowledge check

1. Why must the task brief be checked before starting a mock practical?

2. How did you decide the correct preparation and product route?

Knowledge check - continued

3. (a) What quality checks did you complete before final sign-off? (b) How did you control safety, COSHH and environmental risk?

4. What would you do differently in a live EPA situation?

5. (a) Which evidence best demonstrates your competence in this task? (b) What action is needed before gateway or EPA?

Assessor/Workplace Mentor observation

- ☐ Demonstrate an integrated paint repair process under controlled conditions.
- ☐ Apply safe working, technical data, preparation, material and quality-control routines.
- ☐ Record settings, materials, evidence and decision-making accurately.
- ☐ Respond to assessor questioning using clear professional explanations.
- ☐ Identify strengths, improvements and final readiness actions.
