APPRENTICE INSTRUCTIONS

Panel L3 Block 1 - Tool Control, Damage Documentation and Evidence Capture **v1.0**

Task Reference	Block_1_Task_4_Tool_Control_Damage_Documentation_and_Evidence_Capture_v1.0
Block	Block 1 - Motor Vehicle Foundation Skills - Shared Controlled Programme
Weeks	Weeks 1-10 (source plan)
Duties covered	D1, D2, D5, D8, D9, D10
KSBs covered	K2, K3, K6, K8, K9, S1, S6, S7, B1-B7
Estimated duration	60 minutes
Assessment type	Practical / knowledge / documentation

Scenario

A vehicle has minor outer-panel damage. You must prepare tools, record damage accurately, capture evidence and complete the documentation needed for a repair plan without carrying out structural repair.

Objectives

- Select and check panel repair tools before use.
- Record visible damage using accurate bodyshop terminology.
- Capture photo and document evidence suitable for portfolio upload.
- Control fasteners, clips and small parts during inspection.
- Demonstrate professional housekeeping and tool control.

Materials you need at the workstation

- Training vehicle or damaged panel
- Panel repair hand tools and tool-control checklist
- Camera or tablet for photo evidence
- Job card, repair record and evidence log
- PPE and safe storage equipment

APPRENTICE INSTRUCTIONS

Panel L3 Block 1 - Tool Control, Damage Documentation and Evidence Capture **v1.0**

Practical task instructions

1. Inspect the work area and select the tools required for the task.
2. Check tool condition and record any defects before starting work.
3. Inspect the damage area and record the location, type and severity of damage.
4. Capture before-work photographs and label the evidence clearly.
5. Return all tools and consumables to the correct storage location and complete the record.

Apprentice Assessment Record

Vehicle make		Mileage	
Vehicle model		Chassis number	
Vehicle reg		Job card number	
Panel / area		Apprentice group	

Brief description of work carried out and any further recommendations

PPE worn, special precautions and safety controls used

Photographic evidence, job-card or portfolio reference

APPRENTICE INSTRUCTIONS

Panel L3 Block 1 - Tool Control, Damage Documentation and Evidence Capture **v1.0**

Technical data and measurements

Job card number		Damage area	
Photo evidence taken		Tool condition checked	
Fastener storage method		Damage type/category	
Supplementary concerns		Evidence file reference	

Special tools, technical data, calibration, material controls or method references

Knowledge questions

1. Why is tool condition checked before a panel repair task?

2. What information must be recorded when documenting panel damage?

3. How does photographic evidence support repair planning and portfolio evidence?

Knowledge questions continued

4. Why should clips, fixings and fasteners be controlled during disassembly?

5. What could happen if damage is described using vague terminology?

6. When should supplementary damage be reported?

7. How does evidence quality support first-time-right repair and EPA readiness?

Assessor observation notes
