Scenario

Gateway is approaching. You must review portfolio evidence, practise explaining practical decisions and create a final action plan that links remaining gaps to the panel technician standard and EPA methods.

Objectives

- Review portfolio evidence for completeness and quality.
- Map evidence to relevant knowledge, skills and behaviours.
- Practise professional discussion explanations using real work examples.
- Identify final practical, knowledge or evidence gaps.
- Create a realistic final action plan before EPA gateway.

Materials you need at the workstation

- Portfolio tracker, KSB map and EPA guidance
- Completed job cards, photos and witness/assessor records
- Mock knowledge-test feedback and professional discussion prompts
- Action plan template and assessor feedback notes
- Apprentice Assessment Record

APPRENTICE INSTRUCTIONS

Panel L3 Block 10 - EPA Readiness - Portfolio, Professional Discussion and Final Action Plan **v1.0**

Practical task instructions

1. Review the portfolio tracker and identify strong and weak evidence areas.
2. Select practical examples that demonstrate safe panel repair decisions.
3. Answer professional discussion prompts using evidence from real or simulated work.
4. Record any remaining KSB, knowledge or practical-skill gaps.
5. Complete the final action plan and agree next steps with the assessor.

Knowledge questions

1. What makes a portfolio evidence item strong enough for EPA support?

2. How should you prepare examples for professional discussion?

3. Why must evidence be mapped to KSBs rather than simply uploaded?

Knowledge questions continued

4. What should you do if an evidence gap is found before gateway?

5. How can mock knowledge-test feedback be used in final preparation?

6. Why is a final action plan important before Month 36 EPA activity?

7. How will you explain safe working, quality and technical data use during EPA?
