APPRENTICE INSTRUCTIONS

Panel L3 Block 8 - ADAS, SRS and Alternative Fuel Safety Referral **v1.0**

Task Reference	Block_8_Task_4_ADAS_SRS_and_Alternative_Fuel_Safety_Referral_v1.0
Block	Block 8 - Advanced Materials, Safety Systems and Emerging Technology
Weeks	Weeks 113-128
Duties covered	D1-D3, D5, D6, D8, D10
KSBs covered	K2, K3, K5, K7, K8, S1-S4, S6-S7, B1, B5-B7
Estimated duration	60 minutes
Assessment type	Practical / knowledge / documentation

Scenario

A damaged vehicle has visible safety-system, sensor or alternative fuel features near the repair area. You must identify risks, record referral requirements and explain how these systems affect panel repair planning.

Objectives

- Identify visible ADAS, SRS and alternative fuel warning indicators.
- Apply safe boundaries and referral decisions for high-risk systems.
- Record calibration, isolation or specialist requirements.
- Communicate limitations to a supervisor or repair planner.
- Prepare a safe customer or workshop advisory note.

Materials you need at the workstation

- Vehicle, diagrams or training rig with safety-system features
- Technical data, warning label examples and referral checklist
- PPE and safe approach guidance
- Job card, advisory note and camera/tablet
- Supervisor review or sign-off record

APPRENTICE INSTRUCTIONS

Panel L3 Block 8 - ADAS, SRS and Alternative Fuel Safety Referral v1.0

Practical task instructions

1. Inspect the repair area for sensors, SRS components, high-voltage signs or alternative fuel features.
2. Identify which work can be completed safely and which must be referred.
3. Record calibration, isolation, de-energisation or specialist requirements where applicable.
4. Prepare a supervisor/customer advisory note using clear non-technical language.
5. Complete the referral checklist and confirm the next safe action.

Apprentice Assessment Record

Vehicle make		Mileage	
Vehicle model		Chassis number	
Vehicle reg		Job card number	
Panel / area		Apprentice group	

Brief description of work carried out and any further recommendations

PPE worn, special precautions and safety controls used

Photographic evidence, job-card or portfolio reference

APPRENTICE INSTRUCTIONS

Panel L3 Block 8 - ADAS, SRS and Alternative Fuel Safety Referral v1.0

Technical data and measurements

Energy source		Warning labels	
SRS/ADAS components		Isolation/referral need	
Calibration implication		Safe exclusion zone	
Supervisor informed		Customer/workshop note	

Special tools, technical data, calibration, material controls or method references

Knowledge questions

1. Why must ADAS and SRS components be considered during panel repair?

2. What signs indicate that alternative fuel or high-voltage precautions may be needed?

3. Why must learners stay within competence boundaries for high-risk systems?

Knowledge questions continued

4. How can panel work affect calibration requirements?

5. What information should be included in a referral note?

6. How does safe system identification protect customers and colleagues?

7. When must work stop until a qualified person has reviewed the vehicle?

Assessor observation notes
